

A Hospital Integrative Medical Program with Opportunities to Practice in UK, Canada & US.

St. Martinus University Faculty of Medicine (SMUFOM). – Pre-Medical and MD program.

St. Martinus University Faculty of Medicine is one of three private medical schools in the Caribbean that offers a two semester per year system that is consistent with the LCME accredited US, Canadian and most medical school system. With a consistent **first time pass rate of over 90% in the last 10 years**, the school offers an education approach that is proven and tested over time.

The **hospital integrative program** exposes students to first hand clinical practice from day one. With lecture intensive **20-week curriculum** students truly have the time to learn, understand and apply the information offered to them. Key programs offered by the University at this point are Pre-medical, Medical Program (MD) and PhD.

So why select SMUFOM?

- The school offers **Clinical's in US, UK and Canada in some of the leading Teaching hospitals Worldwide**. Our students get the opportunity work in these green book rotations that gives them stronger portfolios for Residency Placements.
- Our students will be exposed to the hospital clinical setting starting the first semester. We are pursuing a relationship with the **300-bed regional hospital** in Curacao so you are exposed to this knowledge in action! It should also be noted that the Government of Curaçao has approved a **\$230 million state-of-the art replacement hospital** that is in the final stages of development.
- The total yearly **tuition is 15% (\$4,200) less** than three semester schools.
- **A Student Portal**- SMUFOM offers an interactive student portal accessible via website. Students can login and find all class documents including syllabus, handouts, and class updates. It is also an exceptional way to stay in contact with your classmates and professors.

- Curacao! This island offers **white sand beaches and colorful buildings**, which is displayed through the Dutch influenced architecture and hospitality. The cost of living in Curacao is also considerably less than most other Caribbean islands. Homes are more affordable and filled with European appeal.
- The heritage of the Sisters of Rosenthal rings through the halls of St. Martinus University. Build in 1842; the Sisters laid the foundation of our exceptional educational system. SMUFOM truly offers excellence through education.
- Safety. Curacao has one of the **lowest crime rates per capita of the Caribbean islands**. Being outside the hurricane belt, it is ranked last in the likelihood of ever being hit by a hurricane.

APPLY ONLINE TODAY, and let us help you realize your dream of becoming a Physician.
